CAREER OBJECTIVE

- Highly skilled user interface and user experience designer with four years of valuable experience at Core42 Company, seeking to leverage my expertise and creative design abilities to contribute to the continued success of innovative projects. Passionate about crafting user-centered experiences that blend aesthetic appeal with intuitive functionality, I am dedicated to driving user engagement and satisfaction through well-crafted design solutions.

WORK EXPERIENCES

UI & UX DESIGNER

Core42 COMPANY | 2019 - Present

- Revitalizing** outdated system software interfaces by modernizing their design to align with current user standards, resulting in an enhanced user experience and improved usability while maintaining seamless integration with existing functionality.
- Designing** captivating banners and engaging popups for internal website, effectively conveying key messages and enhancing user engagement, ultimately contributing to a more visually appealing and informative digital workspace.

INTERNSHIP

MDC BUSINESS MANAGEMENT SERVICES | 2018

- Regularly generated and delivered comprehensive reports to the manager through advanced monitoring tools, offering valuable insights into key performance indicators
- Built dashboards using CRM tool
- Gathered content and spearheaded the creation of an information security awareness campaign.

PARTICIPATIONS

- Volunteer
MOTHER OF NATION FESTIVAL | 2017
- Cyber Quest Competition
SANS INSTITUTE | 2017
